

Founding Charter of the Global Landscapes Forum

Definitions

Ambassadors: An individual of high standing in the community, including Heads of State, Ministers, holders of senior positions in organizations, youth and celebrities and who have been nominated and agreed by the Charter Members.

Charter Member: an organization that has signed the Founding Charter for the Global Landscapes Forum and has the rights and responsibilities as set out in this Charter.

Funding Partner: all donors and other sponsors, which provide consistent, significant funding for the GLF.

Global Landscapes Forum: a platform for Partners and stakeholders to achieve the GLF Vision, Mission and Objectives.

Global Landscapes Forum Community Member: an individual who participates in any GLF including thematic, regional and global events.

Host Country Partner: a Government that agrees to host a thematic or regional GLF event, and includes the Government of Germany.

Participating Partner: Organizations that take part in activities, forums, workshops, campaigns, outreach and engagement and, depending on the activity, contribute funding.

Article 1: Background

The Global Landscapes Forum (GLF) was founded in 2013 by the Center for International Forestry Research (CIFOR), together with the World Bank and UN Environment. At this time the annual global land use related conferences, **Forest Day** and **Agricultural and Rural Development Day**, were merged, and the GLF began championing the Landscape Approach. Since then, the GLF has become the world's largest multi-stakeholder platform of its kind that is designed to accelerate action and produce positive social change based on research, knowledge and data. It proceeds according to four principles: to connect; to share; to learn; and to act. The GLF has reached and engaged millions of people and thousands of organizations annually. It convenes partnerships of international organisations, civil society, scientific institutions, communities, women, and Indigenous groups, the media and the financial and corporate sector (**Annex 1**), unified by the aim to create sustainable landscape solutions to achieve sustainable development and the goals of the Paris Climate Agreement and the Aichi Targets.

Article 2: The Landscape Approach

For the purposes of this Charter and the GLF activities, "The Landscape Approach"¹ refers to a concept to integrate policy and practice for multiple land uses within a given area to ensure the equitable and sustainable use of land, while strengthening measures to mitigate and adapt to climate change, and improve the livelihoods of the people living in the landscape. The application of the landscape approach seeks to address increasingly complex and widespread environmental, social, economic and political challenges that transcend traditional management boundaries.

Article 3: Vision of the Global Landscapes Forum

The Shared Vision of the Global Landscapes Forum is to promote the paradigm shift required to achieve sustainable development and the goals of the Paris Climate Agreement and the Aichi Targets, by connecting communities; and through the production, dissemination and uptake of knowledge and science; and to accelerate action to build climate-resilient, equitable, prosperous and productive landscapes.

Article 4: Mission and Objective

1. The GLF will enable an effective and progressive response to the urgent threat of climate change on the basis of the best available scientific knowledge; it aims to actively contribute to the achievement of SDG 17,

"Revitalize the global partnership for sustainable development," and supports dialogues and actions leading to the achievement of all SDGs. In this context, the GLF and all Partners will promote:

- a. Food security and ending hunger, and safeguarding of vulnerable food production systems, including smallholder systems from the adverse impacts of climate change;
 - b. Actions that will contribute to holding the increase in the global average temperature to well below 2 or 1.5 degrees C above pre-industrial levels, whilst achieving equity and sustainable development;
 - c. Climate and development actions in the landscape that respect, promote and consider human rights obligations, the right to health, the rights of indigenous peoples, local communities, migrants, children, persons with disabilities and people in vulnerable situations and the right to development as well as intergenerational equity;
 - d. Gender equality and the empowerment of women and girls;
 - e. The integrity of all types of ecosystems, including oceans and coastal ecosystems, land-based sustainable resource management systems and the protection of biodiversity;
 - f. The importance of education, training and other forms of capacity building such as inter-learning exchanges, public awareness, public participation, and public access to information at all levels of government and various actors when taking action to achieve sustainable development; and
 - g. The development of innovative financial instruments, aimed particularly at smallholders and sustainable value chains and sustainable resource management systems;
 - h. The development of indicators to measure progress in all activities
2. The Charter Members will review and if necessary revise the objectives in 2022 as the platform's work advances, and may also revisit the institutional arrangement at this time.

Article 5: Pillars and Activities of the Global Landscapes Forum

1. The GLF operates through and is structured by the following Pillars:
 - a. Collaborative platforms and global regional and thematic events, national dialogues (including science and policy dialogues), and online conferences (including webinars, digital summits and Landscape Talks)
 - b. Outreach and online engagement, including media outreach, the GLF website, Social media campaigns (including photo, video, blog competitions), and non-traditional and innovative campaigns targeting marginalized groups
 - c. A Knowledge Hub, which will include a Youth in Landscapes initiative, and will facilitate the collection of knowledge to produce briefings and policy papers (including fact sheets) which will inform international and national policy processes and practices at the landscape level; and
 - d. A Learning Laboratory, which will include training programs, a library and learning institute (including toolkits, interactive maps, infographics) and reflective practice through regular monitoring and evaluation.

1. The ten landscape approach principles are (1) Continual learning and adaptive management; (2) Common concern entry point; (3) . Multiple scale; (4) Multifunctionality; (5) Multiple stakeholder; (6) Negotiated and transparent change logic; (7) Clarification of rights and responsibilities; (8) Participatory and user friendly monitoring; (9) Resilience; and (10) Strengthened stakeholder capacity, as defined in <http://www.pnas.org/content/110/21/8349.full.pdf>

2. The core activities of the GLF will be to:
 - a. Coordinate and conduct knowledge exchange and learning, drawing from science and best practice;
 - b. Bring together scientists, communities, policymaker and corporate and financial sectors and practitioners to enhance understanding of ways and means to generate the evidence needed to fill knowledge gaps;
 - c. Develop, organise and deliver the annual "Global Landscapes Forum" in Bonn as well as supporting activities;
 - d. Develop, organize and coordinate thematic and regional forums as approved by the Charter Members;
 - e. Engage new Partners and Communities;
 - f. Support fundraising efforts when beneficial for the mission;
 - g. Carry out follow-up and continuous engagement with Charter Members, Participating Partners and the GLF Community, including facilitating long term discussions and activities;
 - h. Support and facilitate a repository and learning platform in the Knowledge Hub for cutting edge science and case study data relevant to GLF vision and themes;
 - i. Provide curated, targeted and certified courses and training materials for young people, professionals, stakeholders and practitioners working within landscapes to build their knowledge bases and capacities;
 - j. Operate and develop the website and all online platforms accompanying www.globallandscapesforum.org
 - k. Coordinate and prepare relevant briefs, maps, infographics and other knowledge tools relevant to GLF vision and themes; and
 - l. Cooperate with the Host Country Partners as required.

Article 6: Structure of the Global Landscapes Forum

1. CIFOR will serve as the GLF's implementing organization informed by the Partnership and any Committees established and will oversee implementation of all GLF activities.
2. CIFOR will establish an office that will house the Secretariat under the name "Center for International Forestry Research" in Bonn, Germany and the Secretariat will serve the GLF and be defined by the Mission and Objectives as outlined in this Charter.
3. The Secretariat will undertake day-to-day management of the GLF and raise funds, provide administrative and logistical support and convene and organize all supporting activities and events through a transparent management structure.
4. The GLF will be informed by a "Knowledge Committee", which will comprise of representatives nominated by each of the Charter Members and will ensure diversity, gender equitable representation, including representation of developed and developing country stakeholders, indigenous peoples and scientific representatives.

5. The Knowledge Committee will be coordinated by the Knowledge Hub and provides the GLF with oversight, quality control and thematic and strategic advice for events and activities to ensure the GLF's objectives are met. All GLF events and activities will be conducted with strategic input provided by the Knowledge Committee.
6. The Knowledge Committee may establish advisory committees on specific matters and events to ensure a full diversity and representation of interests and voices.

Article 7: Rights and Responsibilities of Partners

1. The GLF is a function and outcome of the collaboration between committed Partners. There are four types of Partners:
 - a. Charter Member;
 - b. Participating Partners;
 - c. Funding Partner; and
 - d. Host country Partner.
2. A Charter Member is an organization that has signed the Founding Charter for the Global Landscapes Forum. The rights and responsibilities of Charter Members are as follows:
 - a. To share a strong commitment to the vision of the GLF and commit to strive to achieve it by integrating the 'Landscape Approach' into their own activities and plans, as appropriate;
 - b. A duty to share knowledge, scientific research and innovations with the platform;
 - c. The right to be represented in the Knowledge Committee of the GLF;
 - d. The right to request or contribute research and knowledge products specific to the Vision, Mission and Objectives of the GLF;
 - e. The right to contribute to discussions and decisions on annual strategic direction and work plans;
 - f. The right to nominate an Ambassador;
 - g. The right to review and (as a measure of last resort) renounce other Partners' right of the use of the GLF platform logo and name to ensure the credibility and sustainability of the Platform;
 - h. The right to inform and participate in all GLF activities, platform and events;
 - i. The right to propose and host regional and thematic forums with the assistance and/or cooperation of the GLF secretariat;
 - j. The right to participate as advisor(s) in the engagement of GLF management staff;
 - k. The right to propose the dissolution of the GLF Platform.
3. CIFOR, as a Charter Member and the implementing organization will undertake responsibility for raising matching funds to ensure the full potential of the GLF and long term viability and sustainability.
4. Funding Partners are all donors and other sponsors, which provide consistent, significant funding for the GLF. Funding Partners may become a Charter Member should they elect to do so, and on agreement by the Charter Members.

5. All Partners will share responsibility for fundraising for events and activities.
6. Charter Members and Funding Partners will meet annually in Bonn, Germany at the annual GLF, or whenever they deem necessary.

Article 8: Host Country Partners

1. A Host Country Partner is a Government that agrees to host a thematic or regional GLF event. The Government of Germany will serve as the Host Country Partners for the Secretariat and the annual GLF in Bonn, Germany.
2. All Host Country Partners have the rights reflected in the Funding Agreement, but none of the rights listed in Article 7 unless explicitly stated within the Funding Agreement or agreed to by the Charter Members.
3. The Government of Germany through both Ministries will provide core funding for the GLF, including the Secretariat for the period 2017-2022. The Funding Agreements are attached at **Annex 2**.

Article 9: Joint Venture and Partnerships

Nothing in this Charter shall be construed as creating a joint venture, an agency relationship or a legal partnership between the Charter Members. The Charter Members acknowledge and agree that they are legally separate and distinct entities. The employees, personnel, representatives, agents, contractors or affiliates of a Charter Member including the personnel engaged for carrying out any of the project activities pursuant to this Charter shall not be considered in any respect or for any purposes whatsoever as being employees, personnel,

representatives, agents, contractors or other affiliates of any other Charter Member. No Charter Member shall be entitled to make legally binding declarations on behalf of any other Charter Member.

Article 10: Strategic Decision Making

The Charter Members, the Knowledge Committee and all other Committees established as a part of GLF activities will make strategic decisions by consensus.

CIFOR will undertake responsibility for day-to-day, management and administrative and legal decision making on behalf of the partnership.

Article 11: Intellectual Property

All knowledge and information products assigned by CIFOR will be considered Public Goods subject to Open Access Creative Commons license.

Article 12: Withdrawal from the Charter

Any Member to this Charter may withdraw upon six months written notice to the other Charter Members through CIFOR as the implementing organization and Secretariat of GLF. Such withdrawal shall in no way affect the contractual obligations entered into by the Charter Members.

Article 13: Charter Coming into Effect

This Charter is effective after the signatures of at least 5 Charter Members have been added to the Charter and will be kept in the original at CIFOR offices in Bogor, Indonesia.

The Global Landscapes Forum (GLF) is the world's largest knowledge-led multi-sectoral platform for integrated land use, bringing together world leaders, scientists, private sector representatives, farmers and community leaders and civil society to accelerate action towards the creation of more resilient, equitable, profitable, and climate-friendly landscapes. The Center for International Forestry Research (CIFOR), UN Environment, and The World Bank launched the Forum in Warsaw in 2013, alongside the UNFCCC Conference of Parties (COP). With core funding provided by the German Government, the GLF is entering its next 5-year phase with a launch a movement of 1 billion people towards the creation of sustainable landscapes.

Connect with the GLF online! #ThinkLandscape
