

FOOD AND LIVELIHOODS

HUGHCOSTOF DWASTE

Reducing food loss is key to achieving **zero hunger** and meeting environmental targets.

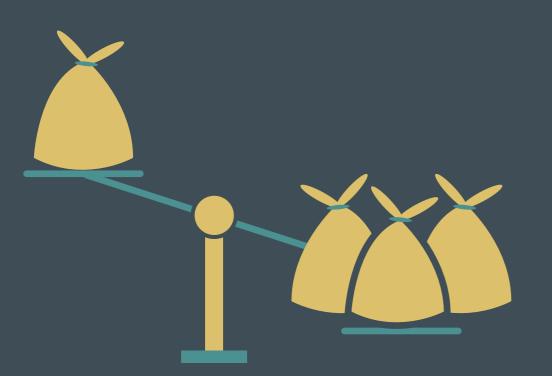

Food waste equals **5310 billion** in developing countries

Rich countries waste

2222 million tonnes of food, almost as much as the entire net food production of sub-Saharan Africa (230 million tonnes)

Per capita waste by consumers is between95-115 kg a year in Europe and North America,

while consumers in sub-Saharan Africa, south and south-eastern Asia, each throw away only **6-11 kg** a year

In developing countries 40% of losses occur at post-harvest and processing levels

while in industrialized countries more than 40% of losses happen at retail and consumer levels
